

Better Packages, Inc. Testimonial

Rogo Fastener Co, Inc. Automotive Industry Distributor

Increased productivity by switching from PVC tape and hand held tape guns, to Better Pack 555eS electronic water-activated tape dispensers

Better Pack 555e Series dispensers offer the most options and highest level of automation available from all Better Pack dispensers.

“As CEO of Rogo Fastener Co., I am always looking for innovative, cost-saving equipment for our company. When I saw Better Packages featured on *Made in America*, I immediately contacted Better Packages to help increase my company’s productivity and speed up our shipping process. At the time, we were using PVC tape and tape guns as our sealing equipment; I knew there had to be a better way of carton sealing out there. Frank Beil, our local Distributor, quickly showed me that water-activated tape and Better Pack tape dispensers was the ultimate sealing solution for us. He provided us with a demo machine and after using it for a few days we simply didn’t want to give it back.

We could not be happier with the Better Pack 555eS machines we converted to along with the pre-printed reinforced water-activated tape we are now using to seal our packages. Sealing cartons manually with PVC tape is a thing of the past for Rogo Fastener Co. We’ve been spoiled, that’s for sure!”
