

Better Packages Water-Activated Tape Case Sealers

**BP Sealmaster® 3000 AFF**  
**Semi-Automatic, Auto Flap Folder Case Sealer**

The Sealmaster 3000 AFF incorporates high-end automation along with the strong, secure seal of water-activated tape. Productivity and efficiency are increased with the Automatic Flap Folder feature. This fully integrated inline, semi-automatic case sealer eliminates the manual carton fold and feed process and can be incorporated into the conveyor system. Engineered to adapt and enhance the carton sealing process in high-volume, fixed packaging facilities.

## Better Packages Water-Activated Tape Case Sealers

# BP Sealmaster® **3000** AFF

## Automation and Security...Effortless Operation

- Automatic Flap Folder folds all four panels for increased productivity
- Wide side drive belts convey 15 cartons per minute and support carton in upright position
- Greater efficiency and less tape changeover downtime with 3,000 foot rolls of BetterSeal Secure® tape
- Floating urethane rollers ensures a professional-looking, secure seal
- Top and bottom head can be loaded with different widths of tape
- Adjustments can be made quickly and easily to accommodate various size carton runs
- Adjustable feet help to achieve optimal height and simple inline integration
- Optional wheels help moving and relocating easier within the packaging facility

### Control Features - Main Control Panel

- Start and emergency stop safety buttons
- Water level indicators for consistent uninterrupted operation

### Technician's Control Box

- Box length control for Flap Folder
- Water temperature control for top and bottom water bottle heaters
- Upper head and lower head on/off switches for sealing top or bottom only
- Test buttons to ensure proper operation
