

Safety & Water-Activated Tape Dispensers...
Are they Created Equal?
Your Needs...Our Solutions

Problem: Your company is focused on employee safety and needs the safest electric water-activated tape (WAT) dispensers on the market.

Are your WAT dispensers safe? If you're unsure, you should know that there are many safety differences between the various manufacturers. Using dispensers that are not compliant to the highest safety standards is a risk that's not worth taking.

Solution: Purchase Better Packages® dispensers—the ONLY electric WAT dispensers engineered to meet or exceed UL, CE and CSA standards.

The bottom line: All dispensers are **not** created equal. At Better Packages, every electric dispenser is engineered and manufactured with the highest operator safety standards in mind. Steel side frames, flame retardant materials and thermal cutoffs are just a few features built into our dispensers to ensure your operators are safe. Not to mention our BP555e Series has been UL approved for over 50 years! Focusing on safety means you can be confident that your employees are protected.

Better Pack Dispenser

vs.

Competitor's Dispenser

Why Better Packages?

To use WAT, you need a water-activated tape dispenser. To maximize productivity and cost-effectiveness, you need to choose the right dispenser and manufacturer. Better Packages dispensers are quite simply, the best dispensers on the market.

Better Packages Dispensers Are...

| | |
|--|--|
| Simple to Operate | Our elegant design makes them easy to use from the moment they come out of the carton. Employees can get right to work. |
| Safe | All Better Pack electric tape dispensers are built to meet or exceed UL, CE and CSA regulatory requirements for electronic and operator safety. No other dispenser manufacturer can make this claim. |
| Reliable | Better Packages dispensers are extensively tested and proven. They: <ul style="list-style-type: none"> • Are made to the highest specifications-- from steel frame construction to low voltage heaters. • Last an average of 16 years. |
| Backed by a Company in Business for Almost 95 Years | Throughout our long history, Better Packages has focused only on supporting the water-activated tape market. The result? We are the #1 manufacturer of water-activated tape dispensers in the world. |
| Supported by an International Network of Distributors | Our Better Packages' global network of Authorized Distributors provides the most comprehensive service and support in the industry, using 100% Better Packages parts. |
