

Better Pack® 500/500M IJ

ELECTRIC WATER-ACTIVATED TAPE DISPENSERS AND INK JET SYSTEM

Print on Demand, Brand and Customize Print Messages

The Better Pack 500 and 500M Ink Jet System combines our dependable BP500 dispenser with an integral ink jet printer (**which is sold separately**). The dispenser is fast and reliable and is perfect for medium to high volume packaging environments. In addition to all the carton sealing benefits resulting from using water-activated tape, the Ink Jet System enables custom printed one-color messages or time stamps to be printed directly on the tape as it is dispensed.

IMPORTANT TO NOTE: the BP500IJ is designed to accept the printhead, which, along with the controller, software and ink is sold separately.

Select One to Complete Your Ink Jet System

- Ink Jet Printhead with Basic Software and Controller
- Ink Jet Printhead with Premium Software and Controller
- Ink Jet Printhead with Basic Software
- Ink Jet Printhead with Premium Software

(It is necessary to order at least one controller to program messages.)
